**I**T is evident that the liquidating movement which has been recently causing a decline of prices on the Stock Market has not yet run its course. Certain interests are under the necessity of selling securities in order to lighten a burden, which, under money market conditions, is proving too heavy to carry, and this cause of weakness still in some measure exists. Mr. Morgan's interview on Tuesday was given out manifestly for the purpose of, if possible, checking the liquidation; and it was followed by a day of higher prices; but the effect was not permanent. The truth that the current business prosperity is suffering under so many burdens that it may in the end be tired out by the weight of its own load. Large earnings are not of much benefit to the security owners of railroads, when the profits are eaten up by higher wages, higher cost of materials, and the difficulty of raising money for improvements only at high rates of interest. So it is with other branches of business. The scarcity of loanable capital hampers mercantile houses, manufacturers, and builders as much as it does the railroads, and, as long as it lasts, will undoubtedly prove to be a check upon business. The general situation is sound enough, and the mass of "undigested securities" has good value behind them; but it is only too apparent that the process of digestion will take a long time, and that many more months of the existing high rates for money would in the end undermine that confidence in the immediate business future, upon which the whole fabric of business prosperity rests.

**T**HE ways of Governor Odell and the New York Legislature in the matter of taxation are past finding out. The Governor in his message of this year recommended that the State tap three new sources of taxation: (1) a tax in real estate conveyances; (2) a tax in the gross receipts of franchise corporations, and (3) a tax on mortgages. One after another these legislative plans were dropped. The first to be abandoned was the tax on corporation receipts, the second the tax on real estate transfers, and now the tax on mortgages has also been thrown overboard. But in order to give another exhibition of vacillation, a higher tax on real estate transfers is to be substituted for the mortgage tax. Surely it would be difficult to give a more distressing exhibition of legislative incompetency. The New York real estate interests do not know where they stand, or at what point they will be attacked next. As soon as they rally to defend themselves from danger at one point, that particular threat is abandoned, and they find themselves exposed at another point. There would have been some sense in substituting a recording tax on mortgages, in lieu of all other mortgage taxation, because, even though the revenue were unnecessary, the whole business of borrowing and lending money on real estate would be benefited by the relief afforded to mortgages through their exemption from the general property tax; but apparently that was too sensible and popular a course to pursue. Whatever is done, it must be something that will injure, and not benefit real estate. So the tax on conveyances is revived instead of the tax on recording mortgages. Moreover, the proposed rate of taxation is raised, with the effect of making it burdensome and oppressive, for it will mean a charge of \$250 to be paid by somebody when a parcel worth \$100,000 is transferred. Such a tax will undoubtedly produce several million dollars of unnecessary revenue at a smaller cost to the real estate interests and the Republican state administration than the mortgage tax would have done; but the superfluity and wantonness of the attack on the real estate business is enough to make a New York property-owner lose what patience he may have left. Of course it is the real estate operators and speculators who will be hardest hit, but why should they be singled out for such particular and persistent attack?

**W**E are sure that Mayor Low, before affixing his signature, will give due consideration to the ordinance recently passed by the Board of Aldermen, regarding the projection of ornamental features on buildings. Some measure of the kind may be desirable in the interest of artistic freedom, but it is asserted that this particular ordinance was inspired by private interests to absolve a specific building from liabilities incurred by infraction of the existing law. If this allegation be true, the ordinance should be signed with some hesitation. Moreover, it needs to receive more careful consideration from architects, builders and real estate owners than has yet been given to it, for apparently there are certain conditions under which adjacent property owners might be injured by the projections contemplated. Clearly a projection of four feet, be it a colonnade, portico or cornice, might be a very serious damage to contiguous buildings. It will be recalled that in the case of bay windows, it is necessary to obtain the consent of property owners for fifty feet on both sides of the contemplated projection before it may be legally constructed. A safeguard of this character might perhaps be inserted in the ordinance with advantage. Besides the calculations necessitated by this new measure will be a serious obstacle to the legal completion of buildings.

**I**T cannot be too strongly and repeatedly insisted that the Rapid Transit Commission will make a serious mistake in case it accepts Mr. Parsons' route for the lower West Side extension. The Record and Guide pointed out the inadequacy of that route, as soon as Mr. Parsons' plans were announced; and both the Evening Post and the Times have taken the same ground. What is the use of having an express service as far south as 42d street along the West Side, and from there on, only a local service? Probably it is proposed to run the West Side expresses through 42d street and down 4th avenue, but the disadvantages of such an arrangement are overwhelming. The 4th avenue express tracks will have to handle the East Side express traffic, which will include a large part of the heavy travel derived from the Bronx, and all the passengers which the Portchester road and the Vanderbilt lines can gather together; and all this traffic would be a sufficient strain upon its tracks. Moreover, the necessity of turning in through 42d street would cause the West Side expresses to lose several minutes. No! the need of four continuous tracks on the West Side is perfectly obvious, and it is inconceivable that Mr. Parsons should have overlooked it for the two-track Broadway tunnel. The notion of using Broadway as far as possible always seems to possess a peculiar fascination for the projectors of rapid transit routes; but, while a subway that used as much of Broadway, and remained as near to Broadway as it could, has manifest advantages, these advantages are outweighed by the larger capacity and the incidental conveniences of the proposed 7th avenue and West Broadway tunnel.

**D**URING the past week the officials of the Interborough Rapid Transit Company have taken the actual management of the Manhattan Railway system; and they made their assumption of their charge noteworthy by immediately raising the wages of the hard-worked employees of that company. It is to be hoped that they will also bear in mind the desirability of winning at the outset the good opinion of their patrons. The former management of the Manhattan Company alienated public sympathy by always refusing to improve its service until it was forced to, either by competition or by public opinion, and then by doing as little as possible. This did not make so much difference to the company, because, owing to the fact that it was sure of its position and was not bidding for new privileges, it could in a sense afford to disregard the feelings of its patrons. But the Interborough Company is, in this respect, in a totally different situation. It controls the first Manhattan and Brooklyn subways; and it will be very much to its interest to control also, the proposed subway extensions. It seeks and needs, that is, a rapid transit monopoly in three most important boroughs of Greater New York, and whether it will be able to get and keep this monopoly will depend upon the disposition it shows to give its patrons the very best accommodations that it can offer. The city of New York cannot afford to let such a monopoly remain with a company that did not appreciate to the full how vitally the prosperity and growth of the city was dependent upon an adequate train service and station accommodations. On the other hand such a monopoly might be the very best way of handling the vast rapid transit traffic, provided the management of the monopoly acted from the point of view that its natural business purpose of earning as large a percentage as possible upon its capitalization was qualified by its position as a great public servant. As an earnest desire of its intention to im-

prove the standard of its accommodations, a great deal could be done immediately to make the elevated railroad stations both more convenient and more attractive. The Barclay street station used by the west bound travel on the Ninth avenue line, would be a disgrace to a bankrupt corporation and is much more so to a company that can pay a seven per cent. dividend on a stock that is largely water. The patrons of the road would immediately show their appreciation of such rudimentary attention to their comfort by the use of the stations on a very much larger scale.

## Real Estate Situation.

The auction sale of property on 7th street and St. Mark's place, which was held by Mr. Geo. R. Read last Tuesday, was a surprise to the larger part of the habitual frequenters of the real estate salesroom. It was expected that

the properties would sell well, for an extremely active real estate and building movement has recently been taking place in the East Side district between Houston street and 14th street; but the prices obtained and the interest manifested went beyond reasonable

anticipations. The sale attracted a larger crowd to the exchange than has been observed for a long time; and the property was so eagerly competed for by outside bidders that the speculators did not have a chance. The prices obtained were remarkably high, and are to be explained only on the supposition of the liveliest local interest and confidence in the development of that particular district by the residents thereabouts. A few sales like this will undoubtedly encourage offerings at auction, which it is to be anticipated will be of more importance in the immediate future than they have been in the recent past.

The course of building during the first quarter of 1903 does not present so many remarkable features as the course of real estate transactions. The buying of real estate has been stimulated by its improved position as a source of income, which has gone a long way towards

**The Course of Building.** justifying the large increases of values, which have taken place in recent years. Building, on the other hand, is retarded by the difficulty of borrowing money, and by the high prices of labor and materials. Consequently

the figures for the first quarter show, so far as Manhattan and the Bronx are concerned, a small decrease from those of last year, while the figures for Brooklyn, owing to special conditions in that borough, show an increase. In Manhattan and the Bronx taken together there were plans filed for 429 buildings during the first quarter of the current year to be erected at an estimated cost of \$19,425,235. During the corresponding period of last year the number of buildings projected was 396, and the amount involved \$21,760,644.

The decrease is very small and is more than made up by the increase in the new construction in Brooklyn, and the larger amount of money to be spent in altering old buildings. Unless there are business and labor disturbances this spring, it is probable that the total amount of money called for by the new building plans filed in 1903 will exceed the sum which builders planned to spend in 1902.

So far as the rate at which different classes of buildings are constructed, the following table exhibits the comparative totals of the two years—these totals being for Manhattan alone.

	1903.		1902.	
	No.	Estimated cost.	No.	Estimated cost.
Business .....	64	\$5,235,000	45	\$5,277,000
Apartment hotels ...	12	3,300,000	15	5,290,000
Tenements .....	116	6,156,000	41	3,395,000
Private dwellings ....	18	702,000	35	2,456,000

It will be seen from this table that the amount of money which it is proposed to invest in business buildings is just about the same for the two years, but that the number of such buildings projected in 1903 is much larger. This confirms the fact already noted that temporarily the tendency is in the direction of smaller building enterprises; but there is no reason to suppose that this tendency is anything but temporary. The sign, however, so far as it goes is an encouraging one, because it shows that the small business men are like the big ones, prosperous, and are needing more room. In apartment hotels and residences the decrease is very considerable. The twelve hotels for which plans have been filed in 1903 call for an expenditure of only \$3,300,000, while the fifteen, for which plans were filed during the corresponding period of 1902 were estimated to cost \$5,290,000. In private dwellings the decrease is proportionately still more considerable. Only 18 of them, to cost \$702,000, have been projected during the first three months of 1903—only 18 private residences in a borough that less than ten years ago saw the projection during the corresponding period of over 250

such buildings. These 18 dwellings are just about half the number of similar buildings which were projected during the first quarter of 1902, and they are estimated to cost only \$702,000, compared with \$2,456,000 during the former. The losses occasioned, however, by these various decreases are almost entirely made up by the very much more rapid rate at which tenements and apartment houses are going to be built. According to the building department records, plans were filed for 116 tenements to be erected at a cost of \$6,156,000 during the first three months of this year, against only 41 tenements to be erected at an estimated cost of \$3,395,000 during the first three months of last year. It is extremely probable, moreover, that this rate of increase will itself be accelerated during the remainder of the year—particularly in case the proposed compromise in relation to 7-story semi-fireproof apartment houses is enacted into the law. In that case, indeed, we should expect to see an amount of tenement and apartment house building undertaken before the end of the year, which would come very near to breaking the record.

From whatever cause the present activity in the real estate market is truly extraordinary. It not only exceeds that of any corresponding quarter of any previous year, but exceeds it by a

**Three Months of 1903.** very large percentage. The number of conveyances recorded on the first day of April of the present year, was actually two-thirds of the number recorded for the whole first week in April of 1900—only three years ago. The increases have been particularly heavy during

March. The April records will not perhaps show up quite so well, for the total number of transactions recently have been very much curtailed by the threatened mortgage taxation; but now that this threat is disappearing we may expect a renewal of trading, which will go even further in the direction of breaking past records.

In order to show what this activity has amounted to and how it has been distributed throughout the first three months of 1903 and among the three most important boroughs of the city, we have prepared the following table, which gives the facts in as succinct a form as possible:

	MANHATTAN.		1902.	
	No.	Am't involved.	No.	Am't involved.
January :.....	1,204	\$10,426,603	1,136	\$13,836,175
February :.....	1,176	11,807,064	1,034	14,317,819
March :.....	1,439	16,545,070	1,204	14,518,621
Total :.....	3,819	\$38,778,737	3,374	\$42,672,615
THE BRONX.				
January :.....	372	\$622,245	425	\$653,961
February :.....	288	1,428,521	305	1,565,063
March :.....	354	331,290	355	860,689
Total :.....	1,014	\$2,352,056	1,085	\$3,079,713
BROOKLYN.				
January :.....	1,562	\$2,158,197	1,464	\$2,383,630
February :.....	1,273	1,886,792	1,290	2,991,835
March :.....	1,296	2,480,244	1,424	2,004,259
Total :.....	4,631	\$6,525,233	4,178	\$7,379,724

It will be seen from this table that during the three months the total of transfers recorded in Manhattan were 3,819 against only 3,374 in 1902, and 2,703 in 1900, an increase of 13 per cent. in one year and 33 per cent. in the three years covered by the present movement in real estate. This increase of 13 per cent. is very extraordinary, and indicates a very much more widespread and wholesome demand for real estate than has existed either in 1901 and 1902. It looks, that is, as if during the next year or two, New York property owners would have the advantage, not merely of the usual speculative inquiry for desirable parcels, but of an excellent demand both for investment and for use; and that the increase in values would not be localized as heretofore, but would extend to all the chief divisions of the more important boroughs. Brooklyn like Manhattan is to be congratulated upon an altogether unusual amount of activity, the total number of conveyances have increased from 4,178 during the first quarter of 1902 to 4,631 during the first quarter of 1903. It is evident that shrewd speculators are looking forward to an unprecedented demand for Brooklyn property as a result of the new bridges and tunnels. Bronx, on the other hand, shows a slight falling off, for the means of communication to that borough are such, that it is difficult to secure tenants for recently erected houses; but this condition will not much outlive the present year.

**W**HEN the Raines law was passed the high license fees that it imposed were the cause of closing hundreds of saloons in this city, and there is good ground for believing that the effect of the Excise bill, which the Governor signed on Thursday, will be somewhat similar now, though the consequences will not be so severe. Whether this would be a good thing for the community is a question that we are not prepared

to discuss, nor do we go altogether with those who seem to think that saloon respectability increases with the cost of a license. Our present duty is simply to point out that one economic effect of increased license fees is to reduce the value of properties in certain sections, which is a fact that those interested in those properties have to bear in mind. Many saloon keepers found that they could not pay the fees required by the Raines Law in their then positions and either had to close up or go into cheaper premises. An idea of the influence of this law on values may be obtained when we say that a competent authority estimates the loss to the tax rolls alone at fully \$10,000,000, and those who are acquainted with the state of store property on the avenues at the extreme east and west sides of Manhattan for some years after the law was in operation will know that this estimate is not an exaggerated one. An addition of fifty per cent. to the license fee, equivalent in some cases to five per cent. per annum upon a capital of \$8,000, would have to be met wholly or in part by a readjustment of rents between the landlord and the saloon keeper. It should be added, however, that the inconvenient effects of the excise increase will, so far as real estate is concerned, be insignificant compared with the proposed mortgage tax legislation which was its alternative. Moreover it will have the incidental advantage of adding about \$1,000,000 per annum to the local revenues.

## The New "Semi-Fireproof" Apartment House.

**W**E are glad to see that the economic side of the Tenement House question has not been overlooked by the friends of Tenement House Reform. There was some reason two years ago for fearing that this important side of the problem might be more or less disregarded. It was possible that the sunlight and fresh air sought for would be obtained mainly through the agency of vacant lots. The new conditions sought for might be such that it would be impossible for owners to build profitably. One of the chief successes of the reform movement has been that it has accomplished so much of its purpose within commercial limits. One of the perennial dangers of the Tenement House question is, that it runs so easily towards philanthropy. It would be easy enough to throw New York into a situation in which Pittsburg has found itself, namely, that of being insufficiently provided with accommodation for certain classes of its inhabitants. But there is no likelihood of there being any cessation of tenement house building in New York City. Indeed, the figures that have appeared so far this year show a revival of activity along many lines. The only subject that has needed any special consideration has been the seven-story tenement house. This class of building occupies a peculiar intermediary position in the scale of structures. Under the existing law the seven-story tenement must be fireproof, six-story being the limit for non-fireproof buildings. On the other hand it has been demonstrated practically that the six-story building is one story too low to be profitably erected on lots worth more than twelve or fifteen thousand dollars. As to the fireproof seven-story building it is too expensive for these locations and, of course, cannot compete with the seven-story non-fireproof buildings erected under the old law, or even with neighboring six-story non-fireproof buildings built on less expensive lots. On the other hand, the situation of much of this more valuable property is such that it would not pay in improving it to jump at once to nine or ten-story fireproof building, because the necessary rent could not be obtained. A great deal of property, particularly in the upper sections of the city on the better and on the broader streets, is of this nature. It is too valuable for the six-story non-fireproof building and not valuable enough for the nine or ten-story fireproof building and the seven-story fireproof building is an anomaly, or half-breed which excludes itself as a commercial proposition.

The readiest way out of the difficulty, of course, is to sanction the erection of a seven-story non-fireproof building. This solution indeed, has been proposed and very earnestly advocated by property owners and others, who were more impressed with the fact that building on a great many lots had become an impossibility, than with any other fact. On the other hand those who were more concerned with the city and its social welfare than with the property owner and his profits, were strongly disinclined to allow any reduction in fireproofing requirements. A seven-story non-fireproof building would be, in their view, a crime—a really dangerous element in the development of the city, which might have to be eradicated at some future date in very much the same way that the unsanitary tenement house has had to be eradicated recently. Indeed, the feeling of people of this type is hostile even to the six-story non-fireproof build-

ing. They believe that that class of structure is one story beyond the safe limit. If they had their way, we would have no non-fireproof building in this city beyond five stories in height. These people are not doctrinaires whose experience is out of touch with real estate interests. Many property owners, themselves, as well as builders and others support this opinion.

The logic of a situation of this kind points clearly enough to some form of compromise. It is obvious that it would be a hardship to interdict the seven-story building of some kind, commercially possible. On the other hand it would be too great a risk to permit a non-fireproof seven-story structure. The compromise that has been suggested seems to us to be a safe and adequate solution of the difficulty. It is proposed that legislative sanction be sought at once for permission to erect a "semi-fireproof" seven-story building—that is a building wherein the staircase, dumb-waiter shafts, etc., shall be fireproof as at present required, but in addition, each of the floors shall be made fireproof, constructed of iron beams and terra cotta or some other approved fireproof material. This exempts the studding, partitions, roof, etc., from fireproof requirements.

Thus, it is proposed to create an intermediate class of buildings—a class which shall stand between the non-fireproof building and the thoroughly fireproof structure.

The Record and Guide is opposed to any lowering of the fireproof standard. It is our belief that New York City should be a city of fireproof buildings. This condition cannot, of course, be reached in a day. The rights of a great many people have to be considered and it is necessary that progress should be made slowly. No one, however, should retard this progress or remove the eyes of people from the desirable result. We believe, however, that the seven-story "semi-fireproof" building as proposed is warranted, even keeping in mind the ideal for the future. It relieves a situation which is in some degree oppressive. It enables builders to commence a large amount of needed improvement. If in a special case it lowers fireproof requirements slightly, this departure from the standard will be more than offset by the effect that it will have upon the six-story non-fireproof class, for, we think, it will be discovered that in a great many cases it will be more profitable for owners to build the seven-story "semi-fireproof" building than the six-story non-fireproof building, particularly as the value of lots is continually increasing on Manhattan Island. Moreover, with the fireproof floors we shall obtain a very substantial and safe building. For these reasons it is our opinion that the new type of tenement house proposed—the semi-fireproof structure—merits the endorsement of Mr. de Forest and others in authority, and it is the belief of the real estate world that if legislative sanction be obtained, a large investment will be made in this class of building which we predict will become very popular with tenant and owner.

## Bill to Provide for Semi-Fireproof Apartment Houses.

The following is the bill which will be substituted for Assembly Bill 1059, and which permits the erection of seven-story semi-fireproof apartments:

An act to amend chapter three hundred and thirty-four of the laws of nineteen hundred and one, entitled "An act in relation to tenement houses in cities of the first-class," as amended by chapter three hundred and fifty-two of the laws of nineteen hundred and two, in relation to fireproof tenements.

The people of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section eleven of chapter three hundred and thirty-four of the laws of nineteen hundred and one, entitled "An act in relation to tenement houses in cities of the first-class," as amended by chapter three hundred and fifty-two of the laws of nineteen hundred and two, is hereby amended to read as follows:

Section 11. Fireproof tenements, when required.—Every tenement house hereafter erected exceeding six stories or parts of stories, in height above the curb level, shall be a fireproof tenement house, nor shall any tenement house be altered so as to exceed such height without being made a fireproof tenement house.

Except that a tenement house may be erected to a height not exceeding seven stories provided that each and every floor of such house is constructed fireproof with iron or steel beams and fireproof flooring, and provided also that such house is furnished with a properly constructed power passenger elevator, sufficiently large to carry six persons at one time, which shall be operated so long as such tenement house is occupied. A cellar, the ceiling of which does not extend more than two feet above the curb level, is not a story within the meaning of this section.

Section 2. This act shall take effect immediately.

As nothing whatever has been done to the section of Bronx Park lying west of the Bronx River since it was acquired for park purposes, it is proposed this coming year to clean it up, lay out roads and walks and plant shrubbery. About fifty acres is

embraced in the section, and as the crowds of people which flock to the Botanical Gardens on the north and the Zoological Gardens on the south spread out through this place, it has become a very central place and requires some attention. The Commissioner of Parks in that borough, John E. Eustis, asks for an appropriation of \$18,500 for this special work.

## A Building Code Subject.

An ordinance emanating from the Building Department and now before the Board of Aldermen amends section 4 of the Building Code in relation to filing statements, specifications and plans, and the revocation and cancellation of permits and approvals. The main purpose of this ordinance is to extend the jurisdiction of the Superintendent of Buildings over conversions of buildings from one purpose to another, and to give him power to cancel permits in case of failure to comply with the provisions of the Building Code. The other changes are alterations in the wording of the present section, suggested by the Corporation Counsel's office, for the purpose of making the section agree with the new Charter provisions, and making the subject matter of the section a little clearer. These changes are not very material, except the one relating to the limitation of the permit. The ordinance is so changed that a permit under this bill expires by limitation unless work under the same has been carried above the foundation walls within one year from the time of the issuance of the permit. The bill in part provides as follows:

"Section 4. Filing Plans and Statements.—Before the erection, construction or alteration of any wall, building or structure (building or part of any building, structure, or part of any structure, or wall, or any) platform, staging or flooring to be used for standing or seating purposes, and before the execution (construction) or alteration of the plumbing or drainage of any building, structure or premises, or part thereof, and before the conversion of any building or structure, or part thereof, from one purpose, occupation or use to another, is commenced, the owner or lessee thereof or the agent, architect, builder or plumber, of either (or agent of either, or the architect or builder employed by such owner or lessee in connection with the proposed erection or alteration) shall submit to the Superintendent (Commissioner) of Buildings for the borough where (in which) the premises are situated, and file in the Bureau of Buildings for such borough, a detailed statement in triplicate of the specifications for such proposed erection, construction, alteration, conversion, plumbing or drainage, on appropriate blanks, to be furnished by said Superintendent of Buildings, together with full and complete plans, and such structural and detailed drawings and descriptions, of said wall, building, structure, platform, staging or flooring, premises, plumbing and drainage, and of the proposed work, as the Superintendent of Buildings may require."

The importance of having the Superintendent oversee operations for the conversion of a building from one purpose to another is too plain for argument. When a dwelling is changed into a warehouse and vice versa the Building Department should have some authority in the matter, as well as in other building operations.

## Some References to Legislation.

The most noteworthy occurrences of the week at the State Capitol was the surrender of Governor Odell to the public sentiment in opposition to his Mortgage Tax bill. The Governor's prestige totters under a succession of severe blows, and everything seems to be at sixes and sevens in his cabinet. Of all the tax measures introduced or proposed with his consent, only the Stevens inheritance tax bill and the Excise tax bill have become laws. That Mr. Odell persisted in forcing the liquor act through surprised his old acquaintances who know the extent to which he is indebted to the liquor trade for his early successes in politics.

Senate bill No. 740 provides a system for indexing conditional bills of sale of certain articles of personal property, such as elevators, plumbing, gas fixtures, etc., used in the construction and equipment of buildings. In regard to this bill, Mr. W. H. Chesebrough, president of the Century Realty Company, says that it frequently happens under the existing state of the law that these articles are purchased by builders and installed in their buildings without being fully paid for, the purchasers having entered into contracts with the sellers that the seller shall retain title to the property until full payment has been made. Of these contracts, owners, subsequent purchasers and mortgagees have no notice, and there is no way in which they can obtain notice. The usual method of protection: that is, to rely upon an affidavit from the builder that the articles have been fully paid for, has been proven totally inadequate. Mr. Chesebrough is much in favor of the bill.

A bill introduced by Assemblyman Prince (No. 1,584), providing that no tenement house shall hereafter be erected in the city of New York on any made or filled in ground shall exceed four stories in height.

### PROTECTION FOR MECHANICS.

Mr. Butler's bill amending the Labor law, in relation to the protection of employees on buildings and bridges in course of con-

struction, provides that every contractor, sub-contractor or owner, when constructing a building or bridge, shall provide a network or other sufficient device to protect persons employed thereon in case they fall from such building or bridge. Whenever complaint is made to the Commissioner of Labor that any such net or other device is not sufficient to afford protection to persons employed on any such building or bridge, he shall immediately cause an inspection to be made thereof. If found insufficient, he may prohibit the use thereof, and require the same to be altered or reconstructed so as to provide sufficient protection.

A circular from the City Club names, as the real author of the mysterious Goodsell trolley bill, Henry A. Robinson, general solicitor of the Interurban Street Railway Company. Presuming that he knows what the bill is intended to accomplish, nobody else does. Senator Goodsell seems more willing to introduce "mysterious" bills for other constituencies than he is for his own, as Orange County newspapers are asking why he has not, as requested by the Board of Supervisors, presented bills making the offices of county clerk and sheriff salaried.

The Clark bill, which gives the Mayor of New York City the right to purchase the Staten Island ferry, has been advanced to third reading, and recommitted to the Committee on Cities.

## Tunnel Operations Wait.

The Record and Guide is authoritatively informed that no contracts whatever for constructive work in connection with the Pennsylvania tunnels have been let, the plans yet being in the formative state in a number of important particulars. Even the method for boring the subaqueous tubes yet awaits determination by the President and Board of Directors of the road, but an intimation has been dropped that the supervising committee of expert engineers look with special favor upon the shield method proposed by Chief Engineer Jacobs, which is being used successfully in the trolley tunnels under the Hudson, and is regarded as a completely demonstrated and certain means.

Besides the Jacobs and Sooysmith methods, both of which have been essentially described in the Record and Guide, John F. O'Rourke, contracting engineer, has proposed a system consisting of piers sunk below the river-bed and connected by submerged tubular spans. The construction would comprise four principal processes: the construction of temporary working shafts about 500 feet apart; the building on shore, launching and floating to position of sections of the tunnel which will reach from shaft to shaft; the sinking of these sections to subgrade between the shafts; the alignment and connection of the sections in final position; the removal of the shafts or piers above them; and such back-filling as may be required. The method of tunnel construction proposed by Mr. Jules Breuchaud, C. E., provides for the preliminary construction of a pile foundation or solid footing in successive portions made just in advance of the tunnel walls and roof and all built within the protection of a rectangular shield. Several shields would be simultaneously operated by this method. Cylindrical shafts would be projected through the roof and carried above the surface of the water.

The only outside work thus far begun is some small boring operations to test the nature of the ground to be worked in; and to facilitate these operations, some buildings have been demolished on the sites of shafts that are to be sunk on the Manhattan, Long Island and Jersey shores. Thus, buildings at the terminal of the Long Island Railroad have within a week disappeared, and there, on a site long occupied by an iron express shed a shaft will be sunk and the tunnel started in two directions. On Manhattan Island, George W. Jump & Co., several weeks ago tore down a couple of buildings on the north side of 32d st, near the corner of 11th av, and immediately in the rear of Cooper & Wigand's former foundry, which, having been purchased by the railroad company, will also be removed. The firm of Cooper & Wigand (recently reorganized as the Cooper-Wigand-Cooke Company), has concentrated its manufacturing departments at Newark. It was intended that No. 559 West 32d st, the corner building, should also be removed, but William Dinnien, who occupies the store, has a lease until 1907, and as he refuses to vacate the premises, the railroad company appears powerless to eject him. Dinnien refers everybody to his lawyer, who says that the case is in court. Little or no visible progress in the general work has been made in the last six months. Probably important action and announcements await the granting of the right of way through 32d st.

The consents of owners of property assessed at \$7,006,500 have been secured; owners of \$31,477,600 worth have not replied; and those controlling \$523,500 in real estate in the immediate neighborhood are still actively opposing the plan, ostensibly because they fear their buildings will be put in danger, if not seriously damaged, while the tunnel is under construction. Much of the former opposition disappeared this week when the Netherlands Corporation transferred to the Stuyvesant Real Estate Co. Nos. 414 7th av, 430 8th av, 202, 204, 222, 236 and 242 West 33d st, and William F. Donnelly transferred to the same company 239 and 241 and 253 West 32d st. Both of the sellers represent the interests of Sire Brothers.

Lyons the premises Nos. 59, 61 and 63 8th av to Henry F. Kehr for a term of years.

#### Real Estate Notes.

Geo. R. Read & Co. will on Monday, April 6, be settled in their new quarters at 60 Liberty st.

The Scully Realty Co., of New York, has been incorporated by J. H. Scully, J. J. Hopper and H. C. Thompson.

Elias Kempner has transferred parcels on Bank, 78th and 83d sts and West End av, to the Rexton Realty Co.

J. Clarence Davies & Co. have removed their branch office from 111 Broadway to 156 Broadway, Rooms 7 and 8.

The realty holdings of the Provident Realty Co. above 59th st, some fifteen parcels, will be offered at auction on the 21st inst., by the McVickar Realty Trust Co.

The justices of the Supreme Court, First District, have issued an order removing the place for holding legal sales of real estate, after May 31, from 111 Broadway to 161 Broadway.

Lowenfeld & Prager were the sellers of the block front on the south side of Broome st, between Eldridge and Allen sts, not Mandelbaum & Lewine, as reported in our last issue, they were also the sellers of 805 to 809 5th st.

Muhlker Bros., experienced real estate brokers and agents, have added a department for placing all kinds of insurance; fire, life, accident, liability, etc. Their office is at 1396 Lexington av, corner 92d st. Telephone 2776 79th st.

Arthur S. Cox & Co., to better accommodate their growing business, have enlarged and refitted their offices at No. 31 Pine st. Arthur S. Cox and John J. Bueb comprise the firm. Mr. Cox was for seventeen years with Geo. R. Read.

Edward Kohn, for several years with Julius Friend, has entered the ranks of the realty workers on his own account and opened offices at No. 713 Broadway, corner Washington pl, where he is associated with Walter N. Gladke under the firm name of Edward Kohn & Co.

A deed recorded yesterday shows that the Farmers' Loan & Trust Co. is the real buyer of the property 20 to 24 Exchange pl, running through to 63 and 65 Beaver st, the sale of which by the Alliance Realty Co. to the United States Realty & Construction Co. was reported several weeks ago. The contract for the purchase of the parcel was subsequently assigned by the latter corporation to the Farmers' Loan & Trust Co., whose building at the northeast corner of William and Beaver sts it adjoins. The Farmers' Loan & Trust Co. paid in the neighborhood of \$500,000 for the property.

Philip A. Payton, Jr., the young colored broker and agent of 67 West 134th st, with branch office at 119 Nassau st, has by intelligent and indefatigable work built up an extensive and profitable business. His specialty is the management of colored tenements. Recent sales completed by Mr. Payton include the 3-sty dwelling, Nos. 250 West 130th st, 60 West 134th st and 102 West 126th st, and the 5-sty flats, 106 and 108 West 134th st, sold to J. Chainowitz, and resold to C. F. Bogen; also Nos. 109, 185 and 194 West 134th st and four lots on the east side of Park av, between 117th and 118th sts for Moritz Bauer to Robt. Altman. Mr. Payton bought 13 West 121st st, a 3-sty dwelling, for his own occupancy.

A dispute over the valuation of the property at 42d st and 7th av, on which the Victoria Theatre stands, is to be referred to the Supreme Court for settlement. The litigants are Mrs. Anna F. Davidson, widow of John McBride Davidson, who leased the property from Robert J. Livingston in 1882 for twenty-one years at a rental of \$5,000, with privilege of renewal, and Mrs. Louisa M. Gerry, wife of Commodore Elbridge T. Gerry, who inherited the ground from her father. The lease being about to expire, Mrs. Gerry selected Michael Coleman as appraiser to fix the new rental, while Mrs. Davidson chose Samuel Goldsticker. Mr. Coleman says that the property is now worth \$900,000 and that \$40,000 would be a fair rental. Goldsticker disputes this, and points out that the assessed valuation of the property is only \$450,000. The two appraisers have been unable to reach an

agreement, and Mrs. Davidson will ask the courts to remove Coleman and appoint another appraiser, on the ground that he is not acting in a fair and impartial manner. This is one of those properties which leaves room for a considerable difference of opinion as to value. The Rossmore Hotel sold in 1901 for \$70.40 per square foot, the price included something for the value of the buildings, Nos. 1456 to 1460 Broadway on the east side, between 41st and 42d sts., sold in 1900 for \$38.28 per square foot, prices have advanced considerably since then and both of

these sites are as good if not better than the one under discussion. Certainly the Rossmore is better at \$70.40 per square foot, and this is about Mr. Coleman's figure, the Victoria site would be worth \$915,200 which does seem very high, while \$450,000 would make a square foot price of only \$34.61, which is certainly too low. The average of both of these figures is \$52.50, which would make the site worth \$682,500, which is probably nearer the value than either of the other figures and probably what both appraisers were aiming at.

# The World of Building

## Material Market.

### IRON AND ITS PRODUCTS.

The disposition of the pig-iron market has notably softened, and if there is any significance in this for other lines, builders may look for some measure of concessions after a long period of subjection to hard terms. Until now the producers of pig iron persistently refused to make lower figures than prevailed last fall, saying that they had orders ahead for a long time and were indifferent as to the present temper of buyers. Notwithstanding the protestations, the average sales for each week were but little more than fifty per cent. of the week's output. The announcement by the Southern Furnace Association of a reduction in the price of pig iron to the basis of \$16.50 per ton for No. 2 Foundry at Birmingham, Ala., for Eastern territory, is a confession that the former price was decidedly artificial. The official price for a number of months has been \$18.50 for No. 2, foundry, at Birmingham, for both Eastern and Western territory, but outside interests have been selling as low as \$17.50 per ton. The decision of the manufacturers of bar iron not to advance prices, and the surprising fall in steel plate are also favorable signs for builders.

Never was there an era when values were more arbitrarily fixed by trade councils than now. A few lines of business, in building materials, remained unorganized until last winter, but then it seemed that every one of these formed its respective association. On the whole, it is all right to co-operate, but in this as with everything else the benefits will not be without alloy. In the face of the truth that the iron mills have orders that will keep them busy for months, the price of raw material and of some finished materials fall, simply because the combination overestimated the ability of the public to pay, and by so doing checked the demand; and unless it is revived there will be nothing doing for some mills when the orders placed last fall are all worked up. It would seem that a standard of values well within average ability to pay, yet returning a fair working profit, would pay best in the longer run than would be ensured by moderation.

In turning to other lines one must for awhile yet expect to pay the limit, but if what is going on in iron is a criterion he may look with confidence for better terms in due season, and for the encouragement of that greater tide of prosperity in which the man of moderate means may participate as well as the rich. In the hardware trade, there is a seasonable call of large proportion for staple articles, in a few instances in excess of the supply. In order to be accurate it must also be noted that in some lines the supply greatly exceeds the requirement. Thus, manufacturers of shovels are weeks behind in their orders, but axes are a drug in the market. Builders' hardware moves briskly in spots, elsewhere being slow. The importations of hardware during the past year exceeded those of the preceding year by about 50 per cent. Hardware manufacturers are secured against trouble with their workmen by an agreement made last year which will not expire for some time yet.

Machinery orders are becoming heavy under recent assurances of continued good times. The only drawback is the closeness of the money market. Manufacturers of electrical machinery, refrigerating plants and stationery engines are especially busy.

Indicative of the times is the issuance of \$2,000,000 of new stock of the Westinghouse Machine Co., which will increase the capital of the company to \$5,000,000, and permit of extensions to the plant. The stock pays ten per cent. dividend.

The American Bridge Company report that the orders booked during March aggregated a handsome tonnage. The past week they closed a contract with the Atchison, Topeka & Santa Fe Railroad Company for 3,500 tons; with the Pennsylvania Railroad Company for 4,000 tons of bridgework and 1,000 tons of structural work; with the Missouri Pacific Railroad Company for 2,000 tons; with the Pittsburg, Carnegie & Western Railroad Company for 1,000 tons; and for a bridge for China for 1,000 tons. It is confidently believed that the strikes among the workmen will be settled in a short time.

### BRICK.

The close of the week finds the labor situation in the brick industry devoid of excitement. The "agents" of the local hand-

lers' unions control for the most part the field of operations, and the shippers are submitting to the exactions. But early in the week there was an affair of note, which left a wedge sticking in the armor of the board of walking delegates to show that they are not all powerful. The owner of an up-river boat, upon his arrival here, refused to permit a delegate to put a New York handler on his boat, and the delegate undertook to drive from the dock every truckman who had been drawing brick from that boat. But the owner found trucks to haul his material which the "agent" could not turn away, and then the threat was made that work would be stopped on the buildings where these bricks were being delivered. Resolved to test the ability of the agent to make good his threat, the owner continued to deliver in spite of the delegate, and the work was not stopped even for a minute on the buildings where they were laid down.

Another story is that a prominent firm of material dealers bought a cargo on the understanding that it should not be handled by the local union handlers and truckmen, the firm wishing to test for themselves the power of the delegates. The brick came through all right and are being used. It would seem from these occurrences that the city bricklayers are not in sympathy with the local handlers, and why they should make a choice between the up-river and the local handlers, when all are unionized, is evidently not apparent to them.

The market had sent out 70 barges this week up to Friday morning, an unusually large number. Prices average low, though the surplus is less than it has been at any time since navigation opened. Haverstraw is almost cleaned out of brick, for when other points were shut out by ice the manufacturers there were able to ship. The receipts now are principally from Newburgh Bay, but next week the distant up-river points, which have been thus unable because of freshets, will begin transporting their product to market, and the receipts are expected to be large.

Prices are very unsettled. Every sale is a special bargain, and there is no ruling price for any grade. In general prices for Hudson Rivers range as low as \$4.75, and from that up to \$5.50.

The John B. Rose Company have collected the following comparative statistics of brick on hand at the opening of navigation for the years 1902 and 1903:

	1902.	1903.
Hackensack and outside districts .....	15,610,000	18,362,000
Haverstraw Bay.* .....	118,648,000	102,952,000
Newburgh Bay .....	67,850,000	74,352,000
Rondout district .....	64,564,000	45,378,000
Upper Hudson .....	41,662,000	54,815,000
Total .....	308,334,000	295,859,000

\*Including Verplancks and Croton.

Showing that there were 12,475,000 more brick on hand last year at the opening of navigation than there were this year. In addition to this the number of brick which arrived in this market this year, up to March 23, exceeded the number for the same period last year by about 50,000,000, and a conservative estimate made by a competent judge shows that there are at least 10,000,000 of brick less stacked up in this city than there were at that date, showing a shrinkage of over 70,000,000 in the amount on hand.

## The Labor Situation.

The first of April brought no change in the relations between masters and men in this city, neither disclosing new grievances nor healing wounds already bleeding. The strike of the structural iron workers against the American Bridge Company continues, and the only new conflict in the vicinity is reported from Westchester county, where a general advance in wages by mechanics in the building trades is being contended for. The nature of the demand has been heretofore specified in these columns. As both sides have comprehensive alliances and have long prepared themselves for this tug of war, it is expected that it will be long drawn out. Every considerable place in the country and the adjacent parts of the State of Connecticut is a section of the battle-ground, and consequently the building business in nearly all its branches is simply stopped like a clock

out of kilter. To give a large list of suspended works is therefore quite unnecessary, but a partial one may be interesting: Eugene Reynal's new mansion, costing \$1,000,000; Edward L. Marston's new casino, at Bryan Shore, \$50,000; P. G. Thebaud's new manor house, at White Plains, \$500,000; Richard Harding Davis' new bungalow, \$50,000; Old Women's Home, at Harrison, \$500,000; C. Oliver Iselin's improvements to All View, \$250,000; M. J. Condon mansion, \$250,000; J. A. Peck villa, \$45,000; Iselin Catholic Church for Italians, \$50,000; J. Borden Harriman's house, \$100,000; Moses Taylor's new stable, \$50,000; five villas at Larchmont, \$150,000; eight new cottages at Greenwich and Sound Beach, \$300,000.

The struggle of the structural ironworkers drags its weary length along, with more numerous signs of distress from the strugglers. More and more apparent is it that the local workmen have little heart in it, being more the victims of the International Committee than any distorted ambition of their own. They were simply called on to help out a board of delegates which had little cause other than the conceit of its members for throwing so many men out of work. The Bridge company, with its numerous resources, seems to be but little concerned.

The leader of the local union, Samuel J. Parks, is personally not in favor of a general strike of ironworkers, which the International Committee has ordered to be made on May 1. But, as he says, he does not carry the union in his pocket, though, as we take it, his opinion is fairly representative of the feelings of the New York City workmen. Asked whether Mr. Buchanan could extend the strike to the entire subway and other contracts if the men decided against it, he said very decidedly:

"I should rather think not! If the union decides against a strike, what can he do? In such a case there will be no strike. But I do not believe the strike will be extended, and I DON'T BELIEVE IT WILL BE EXTENDED TO OTHER BUILDING TRADES. There would be no justification for that in my opinion."

Mr. Parks's statement conforms with reason, intelligence and a better knowledge of local feeling than appears to obtain in the national council. The other day, as the Record and Guide is informed by a gentleman prominent in the building trades, the president of this national body was asked if he was aware that the sentiment of this community was much opposed to his proceedings, and he retorted with heat: "The public be damned; I'm looking out for my men.". But if this personage should be turned down and fail to deliver the goods on May Day, it will not be the first time, as we hear.

#### Architect's Suit for Commission.

The case of Robert Maynicke, the architect of 725 Broadway, against the Central Realty Bond and Trust Company, was on trial for three days this week in the Supreme Court, before Justice O'Gorman. The trial ended in a disagreement of the jury, which stood 8 to 4 for the plaintiff, whose attorneys were Kellogg & Rose, of No. 120 Broadway. Mr. Maynicke sued for the sum of \$80,000, as commission, which he claims to be due him for drawing plans and specifications for the big Broad-Exchange Building. His plans, which were made, as he claims, at the request of the Central Realty Bond and Trust Company, through three of the directors of the company, were filed with the Building Department, and upon these plans, though afterwards amended, the building permit was issued. Subsequently another architect was employed, but the plaintiff claims that his plans were used. At the trial the defendant made a general denial, but testimony was given that \$30,000 worth of stock of the construction company was offered to the plaintiffs in settlement of his account, but Mr. Maynicke declined to settle on that basis. The architect had rendered a bill in accordance with the rate fixed by the American Institute of Architects.

The Judge charged that if the plaintiff made plans for the building at the request of persons connected with the company, even though they were not authorized by the company to employ him, and the company used those plans or derived benefit therefrom, the plaintiff was entitled to recover. The case was intricate owing to the intimate relations existing between the Central Realty, Bond and Trust Company, the Alliance Company, which was the construction company, and the Broad-Exchange Company. It appeared that the Alliance Company was organized after Mr. Maynicke had been asked to prepare plans, and that the George A. Fuller Company, in conjunction with the Alliance, formed the Broad-Exchange Company.

#### For a New Bellevue Hospital.

The Board of Aldermen, upon the recommendation of the Finance Committee, has appropriated \$75,000 for the preparation of plans whereby to construct a new Bellevue Hospital. The need of a new Bellevue has long been known. The present Bellevue is eighty-five years old, and it bears a bad name to the poor of the city, to whom, in so many instances, it is the only hospital to which they can be sent. During the eighty-five years that it has been in existence the general plan has remained unchanged. It is the great emergency hospital of the city, and in order to have beds ready for new cases of acute illness and accident it is necessary, on account of overcrowding, to transfer daily to the institutions on Blackwell's Island from 8 to 16 cases

a day (during February, 1903, an average of 15 a day), many of whom are really unfit to leave their beds. There are no proper facilities for the examination and admission of patients, there being but one room in which all the applicants for admission must be examined. Admissions average about 75 a day, but sometimes reach 100. The members of the House Staff occupy very crowded quarters, and have to sleep three, four or five in a room. The employees of the hospital sleep in the basement, some rooms containing 25 to 30 men.

#### Building Operations.

LEADING ENTERPRISES OF THE WEEK IN NEW YORK CITY AND STATE, NEW JERSEY AND CONNECTICUT.—HINTS TO BUILDERS, CONTRACTORS AND DEALERS IN MATERIALS.

##### Red Brick and Limestone for a Fifth Ave. Apartment.

Plans have been filed with the Tenement House Department for an 11-sty apartment house to be built on the northeast corner of 5th av and 11th st. The plot is 51.4 on 5th av, 125 on 11th st, and has a rear L 48 ft running north. The building will be fireproof, skeleton steel construction, with exterior walls of Indiana limestone and red brick. It will be in the style of the French Renaissance.

A central feature of the 5th av facade is a series of grouped windows with copper trim running from the 2d to the 9th stories. The 11-sty will be a mansard roof with copper trim. At the 8th sty a wrought iron balcony extends around the building. Every window in the building has a wrought iron balcony. There will be an interior court 45x15 and a 10 ft rear court extending the entire width. The entrance hall is 14 ft wide and is separated from the public parlors and reception room only by rows of columns. There will be two 10-room apartments on a floor, each containing 3 baths and 2 servants' rooms.

The 11-sty will contain a large laundry with all modern conveniences and devices and 12 servants' rooms. Two large water filters will be fixed at the main. W. E. Finn, of 115 Broadway, is the owner. The plans were originally drawn by F. A. Minuth but have been turned over to Henry Andersen, of 1183 Broadway. Contractors may submit estimates to F. Correll, 43 5th av.

#### New Home for a Publishing Firm.

38TH ST.—W. B. Tubby & Brother, 8 Fulton st, are drawing the plans for the new building to be erected by the Publishers & Printers' Realty Co., in which Col. W. D. #### Suburban.

NEWARK.—Hooper & Co., of 238 Washington st, have been appointed architects of the projected ten-room addition to the Central Avenue School by the school house committee of the Board of Education. The contract calls for the expenditure of about \$25,000.

William Crabb & Co., manufacturers of mill supplies, will shortly start the erection of an extension to their plant at Bloomfield av and the Morris Canal. The buildings are to be located at North 4th st and 3d av, and will cost in the neighborhood of \$40,000. The architect is F. F. Ward, of 203 Broadway, New York. The plans call for a main building of brick construction and one story high. It will be 200x260 feet in dimensions. The structure will contain grinding, hardening, machine, annealing and wood-working departments. There will also be an extension to be used as a boiler-room. The one-story building will give special advantages for light. Besides the main building there are to be two smaller buildings to be used for storage purposes. The contracts have not been awarded.

The foundation work on four 4-sty brick buildings at 307 and 309 Springfield av was started last week. The owner will be William H. Barkhorn, and the estimated total cost is placed at \$40,000. The specifications call for a colored brick front with stone trimmings. All modern improvements. The main floors are to be fitted up as stores. Carl F. Rehman is the architect.

The Lidgerwood Company, of 96 Liberty st, New York, is reported to be almost ready to start work on its new plant, to be located near Frelinghuysen av. A foundry will be the first building to be started. When this is completed and put in operation other parts of the present shops in Brooklyn are to be removed here. It is expected that it will take several years to complete the transfer. The plans are in the hands of the company's engineer, and are said to call for several structures of handsome design. The main buildings are to have grass terraces in front. Part of the building scheme is said to include the erection of at least 100 dwelling houses for the employees of the concern, which is reported to be the purchaser of large tracts of ground west of Frelinghuysen av, but within easy reach of the proposed plant. This part of the work is not expected to be started before late in the present year or next spring.

Architect Thomas Cressey has been awarded the work of drawing plans for the proposed central fire station which is to be erected by the city on the old burying-ground facing Halsey st. The building is to supplant those now occupied by No. 1 Engine and No. 1 Truck Company. The central station will also accommodate reserve apparatus for the fire department. The exact plans and cost have not been determined on. Hurd & Sutton have been appointed the architects for the proposed Fourth Police Precinct Station-house that is to be built at Livingston st and 17th av. It will cost about \$20,000.

JERSEY CITY.—The Jersey City School Board has decided to build a \$400,000 high school on the Harrison site, on Newark av, Jersey City. No architect has been selected, but John T. Rowland, 55 Montgomery st, Jersey City, now has the matter in charge.

ROCKAWAY, N. Y.—Work will probably start on the sewer system this fall. A disposal plant will be located on the Arverne meadows.

FORT HAMILTON, N. Y.—Bids are asked until April 8 for cement and broken stone. Major W. L. Marshall, U. S. Engineers, Army Building, New York.

#### In Other Cities.

STEUBENVILLE, OHIO.—Mowbray & Uffinger, 92 and 94 Liberty st, New York, are completing plans for the erection of a 7-sty fireproof bank and office building for the National Exchange Bank, of Steubenville, O. The plans show a very attractive style of French Renaissance architecture.

PLAINFIELD, N. J.—Mrs. W. B. Gannath, Jr., of 178 Somerset st, will erect a dwelling on Clinton av, near West 6th st, with dimensions of 24x22x30. Bertram & Tammany have the contract for mason work, and Still & Kenney have the carpenter work. E. S. Acker will shortly break ground for a house on Clinton av, near West 3d st. The house will be a dwelling and will be completed with all modern improvements. F. L. Lancaster will be the architect and D. A. Acker the carpenter.

Ground is being cleared for the erection of a hotel on the southern slope of Watchung Mountain, between this city and Scotch Plains. A recently organized company, composed of local business men, purchased forty-three acres of land some time ago, and upon this site the hostelry will stand. Surrounding the establishment it is designed to have a large park. Artificial lakes will be constructed, and here and there a bungalow will be placed. A house which now stands on the property will be remodeled. This will be used as the company's office. The resort, which will be known as the Watchung Springs Hotel, will be 450 feet long, at either end of which will be long wings. A veranda, 25 feet wide, will entirely surround the building. There will be 150 rooms. It is intended to keep the establishment open all the year round. The estimated cost is \$150,000. The officers of the company are: President, Dr. P. J. Zeglio; vice-president, Fred. Sandford; treasurer, John H. Staats; secretary, Clarence E. Teel. The board of directors includes prominent citizens of this city and the borough of North Plainfield.

SARATOGA, N. Y.—Contractor William J. Case has begun the erection of a commodious residence on the southeast corner of Circular and Caroline sts, in which he and his family are to make their home. The plans, as drawn by Architect Brezee, are for a 3-sty frame house somewhat Colonial in style. It will front on Circular st, with a width of 39 ft. and a depth of 67½ ft.

CANAJOHARIE, N. Y.—Bids are asked until April 8 for the construction of sewers and sewer appurtenances in this village. Address Board of Trustees.

CORINTH, N. Y.—The sum of \$25,000 has been appropriated for sewerage system. Plans are being prepared for disposal plant.

LESTERSHIRE, N. Y.—A sewerage system may be built at a cost of \$70,000. Knight & Hopkins, Engineers, Rome, have prepared plans.

CAPE MAY, N. J.—Bids are asked by John Halpin, Pres. Council, until April 28, for constructing a sewer system, approximately three miles in length.

ALEXANDRIA BAY, N. Y.—The citizens voted March 17 to construct water works, to cost \$30,000, and a sewerage system, to cost \$30,000.

VAILSBURG, N. J.—The council has granted Jos. Wehrle, John E. Scarlett and others a franchise to operate gas works.

GLOVERSVILLE, N. Y.—A trunk sewer and sewage disposal plant will probably be built at a cost of \$250,000.

RAHWAY, N. J.—A contract was signed Saturday for an extension of the Willner Wood Works' plant. The building will be 100x175 ft, of brick, and one story in height. The contractor is Adolph F. Roy.

TRENTON, N. J.—J. B. McElfatrick & Son, 1402 Broadway, New York, have completed plans for the Trenton Theatre Building Co., W. S. Hancock, president, Front and Warren sts, it will be a 4-sty fireproof building.

NORWICH, CT.—Sealed proposals will be received at the office of the Supervising Architect of the Treasury at Washington, until 3 p. m., May 6, and then opened, for the construction, except heating apparatus and electric wiring and conduits, of the United States Postoffice in this city, in accordance with the drawings and specifications, copies of which may be had at the architect's office, or at the office of the postmaster at Norwich, at the discretion of the supervising architect.

MECHANICSVILLE, N. Y.—Secretary L. C. Durgin has completed the plans for the new Railroad Y. M. C. A. building to be erected at the head of Second st. The building committee has inspected and approved the plans and Secretary Durgin will leave to-morrow for Boston to submit them to the officials of the Boston & Maine Railroad. The plans call for a 3-sty brick structure 44x60 ft, with a piazza 80 ft long and 10 ft wide on the south and east sides. The ground floor will contain a reception hall 22x25 ft; game room, reading room, dining-room and restaurant, kitchen, emergency hospital and back piazza. The basement will contain double bowling alleys, 56 ft long, boiler and coal room, 16x24 ft; gymnasium, 15x25 ft; toilet and wash room; 50 lockers; bath room with two tubs and three showers. The top floor contains 22 sleeping rooms, toilet rooms, educational class room and committee room and auditorium, divided by flexifold partitions. The auditorium will be 22x42 ft. The building committee expects to commence work on the new building April 15.

ALBANY, N. Y.—Preliminary plans for the three municipal buildings to be erected in the South End have been completed and within a few days the details will be finished for submission to the contractors for bids. The buildings will be a station house 41x61, an engine house and a bathhouse. Address Mayor Gaus or City Engineer Melius.

SYRACUSE, N. Y.—Mrs. Mary H. Dickinson, of No. 401 Montgomery st, has purchased of Colonel A. C. Chase a vacant lot at Harrison st and Comstock av, upon which she will erect a modern residence, to be occupied by herself and family. The building committee of the First Methodist Church met with Architect Russell this week and canvassed the bids which had been submitted for the erection of the new church. Rev. Dr. Charles N. Sims is chairman of the committee. Bids have been received for the Greek Church soon to be erected at the corner of Tompkins st and Wilbur av. The edifice will cost about \$7,000, and the committee in charge consist of Marx Pyznick, Frank Petrunak, Andro Warrian, Paul Kowanecky and Alex Macko.

AUBURN, N. Y.—It is understood that the committee from the City Club to which was referred the matter of securing plans and specifications for the proposed new clubhouse on the site of the Horace T. Cook property in Genesee st, is about ready to report. The plan favored is one of four submitted by a firm of New York architects, who came into competition with firms of Syracuse and Auburn. It calls for a building of colonial style, about 64 ft square, constructed of brick and to cost about \$30,000. The building proposed would be four stories.

#### Of Interest to the Building Trades.

Charles C. Haight has moved from 111 Broadway to 452 5th av. Brick manufacturers are cleaning up their yards and getting ready to resume operations.

A concern is about to commence the manufacture of artificial stone building blocks at Peekskill-on-the-Hudson.

Thomas O'McGill of the Building Department has tendered his resignation, which Commissioner Stewart has accepted.

Over 17,000 square yards of Telford macadam will be laid in Van Courtlandt Park this season, at an estimated cost of \$1 a square yard.

The Board of Aldermen this week referred resolutions for the widening of Delancey and Suffolk sts to the Local Boards of the District affected.

Park Commissioner Eustis would like to have Van Courtlandt Lake dredged this season, as it is offensive at times on account of vegetable matter. The dredging would cost about \$30,000.

The Board of Aldermen has appropriated \$125,000 for completing the new Harlem Hospital, \$2,000 to pay for plans and specifications for the construction of the new 72d precinct police station.

The name of Eastern Parkway Extension, between Bushwick av and Jamaica av, boroughs of Brooklyn and Queens, has been changed to Highland Boulevard, by order of the Board of Aldermen.

Lawyer Pierre F. Cook has been appointed receiver of the George A. Williams Company, general electrical contractors, 56

Montgomery st, Jersey City. The assets are \$27,000 and liabilities \$54,000.

Mr. P. J. Lavelle has been appointed Superintendent of Buildings for the Bronx, by Borough President Haffen, to succeed Michael J. Garvin. Mr. Lavelle is a gentleman of distinguished attainments in his calling.

The American Bridge Company recently took an order for the steel frame of a large manufacturing building and within ten days the material was shipped complete. This simply shows that deliveries are again very prompt.

The Appellate Division in the Second Department has just rendered a decision to the effect that "in no event would the erection of a flat or tenement house be a violation of the covenant against erecting anything but dwelling-houses."

At a largely attended meeting at Cooper Union last Sunday only one man opposed a resolution in favor of the municipal ownership of franchises, and he was a Chinaman, who objected because he said it would be paternalism, of which he had already seen enough in his native land.

It transpires that the vaults under the sidewalk at the northwest corner of 42d st and 6th av, which the city considers a nuisance and is trying to abolish, exist by permission officially granted to the owner, John Watts de Peyster, many years ago, and pending a decision by the courts cannot be disturbed. It is understood that Mr. de Peyster derives a large rental from them.

Henry Males, painter and decorator, of 2580 3d av, near 139th st, make a specialty of painting metal ceilings. He does work in his line for such leading metal ceiling contractors as the Berger Mfg. Co., Canton Steel Ceiling Co., H. S. Northrop and others. He is also a dealer in painters' supplies. Telephone 1094 Melrose, calls Mr. Wales.

M. F. Wynn & Co., the well-known contractors for roofing, were not fully settled in their new, commodious and well-equipped quarters at No. 409 East 24th st, when they were routed by a fire in the upper stories of the building, which necessitated their removal to temporary offices at No. 399 1st av, near 23d st. They will return to their 24th st headquarters as soon as possible, likely in a couple of weeks.

A resolution in the Board of Aldermen this week which authorized the Mayor to appoint a commission to prepare a comprehensive plan for the beautifying and development of this municipality, the members of which shall serve without pay, and shall make a report on or before the 1st day of May, 1904, to the Mayor and the Board of Aldermen, was made a special order for the next meeting at 2 o'clock P. M.

The Logan patent horse stall, which has been on the market for many years, and extensively used in the better class of stables, is acknowledged to be the best by many. This stall is constructed on purely hygienic principles, which adds largely to the health and comfort of the horse. It can be adapted to both new and old stables. Booklet and testimonials will be sent to those interested on application to the patentee, M. Logan, Broadway and 50th st.

The Hawkins Iron Construction Co. have removed their office to 66 Fulton av, Queens Borough, where their works are also located. They supplied the structural and ornamental iron work for the new "St. Paul" apartment house, Columbus av and 60th st; the ornamental iron work for the new office building No. 198 Broadway and the new mercantile structure s e cor University pl and 13th st. The Hawkins company carry a large stock of all kinds of iron, especially anchors and beams, and can supply builders promptly.

Hugh Lamb, for many years of the well-known firm of Lamb & Rich, died on Friday morning after an illness of two weeks. Among a few of the well-known buildings designed by him in conjunction with Charles A. Rich, may be mentioned Barnard College building, the German-American building at Nassau and Liberty sts, a block of dwellings on West End av from 77th to 78th sts, the Berkeley school on West 43d st, the San Carlos apartment house at Broadway and 31st st, besides an innumerable number of country houses.

A resolution before the Board of Aldermen appropriates \$32,000 to pay for plans and specifications for the construction of a new municipal building, and an additional court building in Brooklyn. The Municipal Building in Joralemon st does not furnish adequate accommodations for the use of the various departments and bureaus, and the city has been obliged to lease buildings and office rooms, paying at the present time over \$100,000 rent per annum. The site of the proposed building is owned by the city, and is in Murphy Park, at the corner of Joralemon and Court sts, opposite the Borough Hall.

Mr. John H. Drew, who has been identified with the firm of John H. Drew & Bro., house-movers and shorers, 431, 433 and 435 West 17th st, since 1877, and who has been a prominent shoring contractor since 1863, now retires from the firm. Mr. Orrin H. Drew, who has been a member of the firm since 1877, and Mr. Geo. F. Drew, who has been closely and actively connected with the firm for the past 17 years, and who now takes over the interest of his father, Mr. John H. Drew, will continue the business over the old firm name. Thus, for forty years Mr. Drew has followed this one line with great success, and now while yet in the prime of life, retires to enjoy the fruits of his industry and enterprise. The firm is not only an old one, but of well-known reliability.

## Pushing On.

The Harlem Property-Owners' Association, which is keeping up a sharp fight against the proposed Park av viaduct assessment, has secured from the Appellate Division an expression intimating that the Legislature has no power to impose an assessment upon specific property for the benefit of the railroad company. The Court says:

"The objection to the constitutionality of the provisions authorizing an assessment upon specific property for this improvement presents serious questions. The act provides for an elevation of the track of the New York & Harlem River Railroad Company, and of its lessee the New York Central & Hudson River Railroad Company.

"There is nothing in the act to show that this improvement was designed for the benefit of the public, the city at large, or the owners of abutting property; and it is not clear that the Legislature has authority to provide that expense incurred for the benefit of these railroad companies, in order to enable them to comply with the law of the United States, which requires them to elevate their bridge across the Harlem River, can be imposed upon specific property under the guise of an assessment. But this objection can only be taken when the assessment is imposed upon some specific property; and as no such assessment has yet been imposed, we think the question is not presented upon this appeal."

Since the association was organized, October 31, 1901, it has prevented the removal of the station at 110th st and Park av, and through co-operation with the United Real Estate Owners' Associations it has stopped injudicious local legislation and secured changes in the Tenement House Law. As a member said, "we propose to fight until our streets and avenues are properly paved, until Harlem secures its share of public improvements, and until abuses shall cease."

## Death of Deputy Register Bohmer.

Ferdinand Bohmer, Deputy Register of New York County, died on Monday, the 30th ult., from apoplexy at the Presbyterian Hospital, where he had been under treatment for two months for appendicitis. Mr. Bohmer, who was fifty-four years old, was a member of the Grand Army of the Republic and a veteran fireman of the Borough of the Bronx. He was Assistant Deputy Register when Register Ronner took office, in January, 1902. At that time Matthew P. Breen was Deputy Register. When Mr. Breen was transferred to the Magistrate's bench in January last, Mr. Bohmer succeeded to his place in the Register's office. Mr. Bohmer lived at 815 Courtlandt av, Bronx, where he had a grocery store. A widow and two married daughters survive him. The funeral services were held at the Bronx Club, Franklin av and 169th st, on Thursday afternoon, and the interment was at Woodlawn Cemetery. The following resolutions were adopted by the employees of the Register's office:

Whereas, the late Deputy Register exemplified in his daily life, conduct and action every attribute of character that distinguishes an ideal public officer—rugged honesty, great execu-

tive ability and a disposition to serve the public well and faithfully. Be it, therefore,

Resolved, that the community has sustained in the death of our late associate the loss of a valued and tried public servant, a man of splendid executive ability and one whose public life was as clean as his private life was pure.

Similar resolutions were adopted by the members of the Bronx Club, of which Mr. Bohmer was the Treasurer.

## The Aquarium Threatened.

The Aquarium at the Battery is in danger from the antiquated condition of the water pipes, which have been in use ever since the fishes have been there. Those supplying the floor pools are completely rusted out, and have been abandoned, and the floor pools are being supplied daily with water through a number of unsightly overhead pipes. The heating pipes are still in use, but will undoubtedly give trouble from time to time. Two bad breaks in water pipes have already occurred, but being near the outside end, the attendants were able to get at them and make temporary repairs. All the pipes for pools and heaters lie deeply embedded under a heavy cement floor covered with tiles. The next break may occur at some point beyond reach, and as there are no openings through which workmen may pass, they will be obliged to break through an \$8,000 tile floor and a strata of cement to a depth of 4 ft. It seems to Director Townsend inadvisable to break up this valuable floor, and he is urging the laying of new pipes through a cement tunnel with short branches. This will cost in the end, he believes less than temporary repairs.

He also says it will be impossible to greatly beautify the exhibition tanks without more light. It has long been known that the building is dimly lighted, and it seems imperative that the skylights over the fish tanks be trebled in size. No less amount of light will permit a satisfactory view of the collections, and attempts at introducing salt and fresh water plants will be more or less abortive unless more light can be arranged for. The great centre floor pool is so dark that it is practically useless to attempt to do anything with it. The top opening in the large dome must be greatly widened in order to get any satisfactory results. The roof skylights above the floor pools are not centred over the ceiling openings, and it will not be possible to get light into the smaller floor pools without changing their positions.

The average attendance at the Aquarium is about 5,000 daily. The appropriation for the coming year is \$46,500, but the Zoological Society is taking steps to obtain an extra sum of \$30,000 with which to put the building in repair, and to safeguard the valuable collection. The Society would also like to have further changes made; for instance, the installation of an electric light system, which would enable the building to be thrown open at night, and a general painting inside and out. The total cost would be about \$30,000.

## New York Capital for Brooklyn Real Estate.

The Lawyers' Realty Company will be the name of a new company to be organized to deal in Brooklyn real estate. The company will have a cash capital of \$4,000,000, and will have a close alliance with the Lawyers' Title Insurance Company and the Lawyers' Mortgage Insurance Company of New York and Brooklyn. William H. Reynolds, who for many years has been largely identified with Brooklyn realty, will be one of the directors, a member of the investment committee and the general manager of the company. The incorporators of this company are preparing to take advantage of a rise in values, which they confidently expect will take place in Brooklyn, as a result of the many transportation improvements which are shortly to materialize.

## New Bridge in Bronx Park.

The improving of the westerly end of Bronx and Pelham Parkway and the increase in that direction has made it necessary that the small, narrow bridge across the Bronx River in Pelham av should be replaced with a new bridge. The easterly end of this bridge is at the entrance to the Bronx Park proper on the east side of the river, and the westerly end of the bridge is at the entrance to the Baird Court of the Zoological Park, and opposite thereto is the new driveway constructed through the Bronx Park last season, leading directly through, by the Herbaceous Gardens, to the Botanical Buildings. The cost of the improvement is estimated at \$34,000, and is likely to be in the budget this year.

—Mr. Gotschall, the president and chief engineer of the N. Y. and Portchester Electric Railway, the building of which the N. Y. & N. H. Co. has opposed, says it will be the most important example of high-speed electric railroading in the country, and will embody all recent improvements in its equipment. It has been frequently announced and never authoritatively denied that the New York and Portchester Corporation intends to build its line right on to Boston.

We will give ten cents each for the following numbers of the Record and Guide brought to this office in good condition: No. 253 and No. 1,802.

## CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

March 27, 28, 30, 31, April 1 and 2.

**MORTGAGES.**

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

March 27, 28, 30, 31, April 1 and 2.

## JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments. The judgments filed against corporations, etc., will be found at the end of the list.

**The Private Branch Exchange System of supplying TELEPHONE SERVICE is particularly adapted to the requirements of LARGE HOTELS and APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

**British Standard Sections.**

About two years ago a committee was formed under the auspices of the Institution of Civil Engineers, the Institution of Mechanical Engineers, the Institution of Naval Architects, the Iron and Steel Institute, and the Institution of Electrical Engineers, for the purpose of ascertaining whether the sections of iron and steel which are rolled in that country could be reduced in number and made exactly uniform in dimensions.

It was ascertained when the subject was investigated that an infinitely larger number of sections of angles, tees, bulbs, channels and beams were produced in Great Britain than in the United States, Germany or Belgium. The first result was the production of nine lists of sections which are recommended for adoption by the committee. It is needless to say adherence to them cannot be enforced, and it is still open to every manufacturer to make as large a variety of sections as formerly. There are, of course, two points of view from which to regard the subject, viz., the producers' and the users'; the latter will require information respecting weights and strength which has yet to be prepared. Many engineers, architects and designers have favorite sections which have served their purposes during several

years, and which they may not care to relinquish on the moment. It is, however, an advantage in dealing with wrought iron and steel that it is always possible to reach a desired degree of strength by a skilful arrangement of available materials. If one standard section does not serve another can be used which will afford an excess of strength without much addition to the cost of construction.

The first list shows sections of angles with equal sides, beginning with 1 inch by 1 inch. The sizes increase by quarter inches by 3 inches to 3 inches. Then 3½ inches by 3½ inches, 4 inches by 4 inches, and 4½ inches by 4½ inches. The other sections are 5 inches by 5 inches, 6 inches by 6 inches, 7 inches by 7 inches and 8 inches by 8 inches. The sections will vary in thickness, and it is said that angles ordered to the standard thickness shall be practically accurate in profile, but if the thickness is between, above, or below the standards the flanges will be proportionately longer or shorter than the standards. The profile at the back of the toe will be slightly rounded when above the standard instead of square, but the radii at the root and toe will remain unchanged. In equal-sided angles the thickness of the flanges will be the same. It is suggested by the committee that all angles

be ordered by size of flanges and weight per foot. The curves at the root and toes are of very simple kind which can be easily struck out.

The unequal angles begin with  $1\frac{1}{4}$  inch by 1 inch, and as follows:  $1\frac{1}{2} \times 1\frac{1}{4}$ ,  $1\frac{3}{4} \times 1\frac{1}{2}$ ,  $2\frac{1}{2} \times 2$ ,  $3 \times 2$ ,  $3\frac{1}{2} \times 2\frac{1}{2}$ ,  $3\frac{1}{2} \times 3$ ,  $4 \times 2\frac{1}{2}$ ,  $4 \times 3$ ,  $4 \times 3\frac{1}{2}$ ,  $4\frac{1}{2} \times 3$ ,  $4\frac{1}{2} \times 3\frac{1}{2}$ ,  $5 \times 3$ ,  $5 \times 3\frac{1}{2}$ ,  $5 \times 4$ ,  $5\frac{1}{2} \times 3$ ,  $5\frac{1}{2} \times 3\frac{1}{2}$ ,  $6 \times 3\frac{1}{2}$ ,  $6\frac{1}{2} \times 3\frac{1}{2}$ ,  $6\frac{1}{2} \times 4$ ,  $6\frac{1}{2} \times 4\frac{1}{2}$ ,  $7 \times 3\frac{1}{2}$ ,  $7 \times 4$ ,  $8 \times 3\frac{1}{2}$ ,  $8 \times 4$ ,  $9 \times 4$ ,  $10 \times 4$ .

Bulb angles, bulb tees, bulb plates, Z-bars and channels are not much used in building construction, and we therefore need not notice the different sections.

There are thirty sections of rolled beams or joists recommended for use, which are as follows, the dimensions being given in inches:  $3 \times 1\frac{1}{2}$ ,  $3 \times 3$ ,  $4 \times 1\frac{1}{4}$ ,  $4 \times 3$ ,  $4\frac{1}{2} \times 1\frac{1}{4}$ ,  $5 \times 3$ ,  $5 \times 4\frac{1}{2}$ ,  $6 \times 3$ ,  $6 \times 4\frac{1}{2}$ ,  $6 \times 5$ ,  $7 \times 4$ ,  $8 \times 4$ ,  $8 \times 5$ ,  $8 \times 6$ ,  $9 \times 4$ ,  $9 \times 7$ ,  $10 \times 5$ ,  $10 \times 6$ ,  $10 \times 8$ ,  $12 \times 5$ ,  $12 \times 6$ ,  $12 \times 6$ ,  $14 \times 6$ ,  $14 \times 6$ ,  $15 \times 5$ ,  $15 \times 6$ ,  $16 \times 6$ ,  $18 \times 7$ ,  $20 \times 7\frac{1}{2}$ ,  $24 \times 7\frac{1}{2}$ . The weights vary from 4 lbs. to 100 lbs. per foot. The flanges slope from the web upwards, and the standard thickness is to be measured at distances half-way between the extreme edges of the flanges and the nearer side of the web. It is suggested that all beams be ordered by depth of section, width of flanges and weight per foot.

The T-bars are of the following dimensions, in inches:  $1 \times 1$ ,  $1\frac{1}{4} \times 1\frac{1}{4}$ ,  $1\frac{1}{2} \times 1\frac{1}{2}$ ,  $1\frac{3}{4} \times 1\frac{1}{4}$ ,  $1\frac{1}{2} \times 2$ ,  $2 \times 2$ ,  $2\frac{1}{4} \times 2\frac{1}{4}$ ,  $2\frac{1}{2} \times 2\frac{1}{2}$ ,  $3 \times 2$ ,  $3 \times 2\frac{1}{2}$ ,  $3 \times 3$ ,  $3 \times 4$ ,  $3\frac{1}{2} \times 3\frac{1}{2}$ ,  $4 \times 3$ ,  $4 \times 4$ ,  $4 \times 5$ ,  $5 \times 3$ ,  $5 \times 3\frac{1}{2}$ ,  $5 \times 4$ ,  $6 \times 3$ ,  $6 \times 4$ ,  $7 \times 3\frac{1}{2}$ .

To anyone without experience in the use of steel the recommendations may appear to be insignificant. But the adoption of the sizes will be little short of an industrial revolution. For designers the use of normal sections will be advantageous in saving time, and to the makers of beams as well. It will no longer be necessary in the United Kingdom to institute inquiries about the obtaining of sections of the dimensions which are sometimes introduced in drawings without any consideration as to whether they are easily obtainable in the market. The number of sections of rolled beams is very satisfactory, and architects are not likely to encounter any difficulty in spans or loads to which one or other section is not equal. The rolling mills can easily produce the standard sections owing to the simple arrangement of the profiles. In the course of a year the sections generally required will, no doubt, be on sale.

### Roofing Tin.

Statistics show that during the last three or four years, or since the American Tin Plate Company began to reform the methods of producing terne plates, the efforts of that company to re-establish the old-time reputation of roofing tin have met with splendid success. The use of terne plates, especially of the higher grade brands, has increased to a very great extent, and this material is now largely preferred to other kinds of roofing material. The truth of the motto "The Best is the Cheapest in the End" is recognized by the consumers.

When the American Tin Plate Company came into possession of all the larger tin plate works in the country, it also gained the services of the best experts in this branch of industry. The combined experience and knowledge of the latter, as well as of the experts engaged by the U. S. Steel Corporation, of which the American Tin Plate Company is a constituent, are at the disposal of the American Tin Plate Company. This fact, strict supervision, and the systematic mill practice which prevails in all of that company's works, enable it to produce material superior to all other makes. The most favored brands at present are the "MF" Old Style and the "U. S. Eagle N. M.", but besides these the company makes a variety of other grades to suit various purposes and occasions.

Recently the company issued a booklet entitled "A Fifty-Year Roof," which, besides giving a succinct history and description of terne plate making, also teems with useful technical information. Mr. W. C. Cronemeyer, the Pittsburg agent of the American Tin Plate Company, 1211 Carnegie Building, Pittsburg, Pa., will send this booklet postpaid free to all applicants.

### A New Market for Stone-Working Machinery.

Every Record and Guide reader desires to know where he can make a new dollar. When we see a pointer we tell them. Why is it that South America has been so long neglected by our enterprising engineers? Stone is now entering largely into the composition of buildings in the principal cities of Argentine. For stairs and entrance halls imported white marble is employed, and over 1,200 tons of encaustic flooring tiles are annually shipped to that country.

From Uruguay 160,000 tons of stone are exported to Buenos Ayres every year, and also 20,000 tons of sets for street paving. Stone is also found in Cordoba, San Luis, Hinojo, and Chuhut, the varieties including red and green granite and limestone and laminated porphyritic quartz.

The output of the quarries at Tandil, in Buenos Ayres, during 1901 amounted to 75,000 tons of granite, and this stone is largely used in the buildings of the railway and insurance companies, and by the banks, whose erections are faced with it for the first 6 feet or so.

This Tandil granite can be got in large blocks, close grained and hard, splitting evenly and easily, and taking a high polish. Yet with all these natural advantages the lack of modern machinery is nothing short of deplorable; the work is now executed by hand and with the most primitive tools, with a natural consequence that the finished article is quite a luxury. By the introduction of modern methods and up-to-date machinery, the cost of production could be so much lowered as to greatly enhance the demand and open a vast field for commercial enterprise.

### New Cement Company.

The Portland cement trade is an exceedingly attractive one at the present time, judging by the unusual number of new concerns that are entering it. Most recently incorporated is the Quaker Portland Cement Company, with a capital stock of \$5,000,000, for which prominent insurance and banking interests are more or less responsible. The works will be at Sand's Eddy, Pa., and will be able to produce 1,750,000 barrels of cement annually. The Quaker Company will be controlled by interests identified with the Northampton Portland Cement Company, of Stockertown, Pa. The Delaware & Northampton Railroad Co., which will be about ten miles long, and will connect the two works, has been incorporated under the laws of New Jersey, with a capital stock of \$5,000,000. Another offspring of the enterprise is the New Jersey & Delaware Railroad Co., with a capital stock of \$100,000. B. Sherwood-Dunn, president of the Northampton Portland Cement Co., who has offices in the Standard Oil Building, in No. 26 Broadway, has been elected president of the Quaker Portland Cement Co., and the Delaware & Northampton Railroad Co. Others interested are John R. Hegeman, president of the Metropolitan Life Ins. Co.; Frederick H. Echer, of the same company; Silas B. Dutcher, of the Hamilton Trust Co. of Brooklyn; Lucian C. Warner, Charles E. Sprague, president of the Union Dime Savings Bank; Haley Fiske, Conrad Miller, J. C. McGuire, and James Verdin.

### The Timber Supply.

The most heavily timbered State now is Oregon, next comes California, then Washington. They are each far ahead of any other State. Of the States east of the Rockies, Arkansas has probably more timber than any other, though exact information is lacking. Following it more or less closely come such States as Louisiana, Mississippi, Minnesota, Wisconsin, Maine, Pennsylvania, Texas, North Carolina and Florida.

The most valuable tract of timber under one control comprises over 1,000,000 acres in east Texas, which is worth upward of \$25,000,000.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

This MF trade mark is stamped on every sheet of the best roofing tin made. This MF mark means "Most Favored," because this brand is most favored by architects, dealers, and builders everywhere. MF Roofing Tin was first made in Wales 50 years ago—later the process was improved in America—and the product developed, until now MF Roofing Tin is more in demand than any other brand. The superior quality of MF Roofing Tin is attested by the first prize awarded it at the Paris Exposition, 1900, where it was in competition with all the world.

The entire tinning process is effected by skilled hand labor, without the use of acids or rolls. The very best plates, a great amount of pure tin and new lead, the utmost care in manufacture, successively contribute to making MF the best of all roofing. It is most economical, because it lasts longest—many roofs made of MF 50 years ago are sound as ever today. MF Roofing Tin is sold by dealers everywhere. Specify it in your building estimates. Ask your roofer,

or write W. C. CRONEMAYER, Agent, Carnegie Building, Pittsburgh and receive illustrated book on roofing.
